Good news for homemakers

Spring Clean-Ups for The Kitchen

Now is the time of year that all of us want to give our home a special clean-up for spring. Please remember to save your window washing until after all the pollen has been washed by rain showers from the trees. We get an excessive amount of yellow pollen from oak, maple and pine trees.

Let's begin in the kitchen for our spring clean-up activities.

APPLIANCES

1. To rid yellowing from white appliances, try this. Mix together ½ cup bleach, ¼ cup baking soda and 4 cups warm water. Apply with a sponge and let set for 10 minutes. Rinse and dry thoroughly.

2. Instead of using commercial waxes, shine with rubbing alcohol.

3. For quick clean-ups, rub with equal part of water and household ammonia.

4. Or you can try club soda. It cleans and polishes at the same time, believe it or not.

BLENDER:

Fill ½ full with hot water. Add a drop of detergent. Cover and turn the blender on for a few seconds. Rinse and drain dry.

BREAD BOARDS: 1. To rid cutting board of onion, garlic or fish smell, cut a lime or lemon in half and rub the surface with the cut side of the fruit. A lemon or lime that has been used for juice can also be used after the juice has been extracted.

2. Make a paste of baking soda and water and apply generously and rinse.

3. Use white vinegar straight from the bottle on the bread board. Then wash and rinse with soap and water.

BROILER PAN:

Sprinkle the hot pan heavily with laundry detergent. Cover with a dampened paper towel and let the burned food set for a while. The pan will require very little scrubbing.

CAN OPENER:

Loosen the grime by brushing with an old toothbrush. To thoroughly clean blades, run a paper towel through the cutting process. You will find your can opener operates much better when cleaned thoroughly. Also, you may wish to add a drop of cooking oil on the cutting blade.

CAST IRON SKILLETS:

1. Clean the **outside** of the pan with commercial oven cleaner. Let set for two hours and the accumulated black stains can be removed with vinegar and water.

2. After cleaning the pan, take a piece of waxed paper and while skillet is still warm, wipe around the inside to prevent rusting;

3. Or, when clean, rub a small amount of oil on the inside of the pan to keep it seasoned.

4. Did you know? Cooking in cast iron definitely boosts your iron intake. Soup simmered for a few hours in an iron pot has almost 30 times more iron than soup cooked in another pan.

COPPER POTS:

1. Fill a spray bottle with vinegar and add 3 tablespoons of salt. Spray solution liberally on a copper pot. Let set for a while, then simply rub clean.

2. Dip lemon halves in salt and rub;

3. Or rub with Worcestershire sauce or ketchup. The tarnish will disappear. This is also the most expensive method of keeping a copper pot clean.

BURNT AND SCORCHED PANS:

1. Sprinkle burnt pots liberally with baking soda, adding just enough water to moisten. Let stand for several hours. You can generally lift the burned portion right out of the pan.

2. Stubborn stains on non-stick cookware can be removed by boiling 2 tablespoons of baking soda, ½ cup vinegar and 1 cup water for 10 minutes. Reseason the pan with salad oil.

3. Always place a jar lid or marbles in the bottom of your double boiler. The rattling sound will signal if the water has boiled out.

DISHES:

1. Save time and money by using the cheapest brand of dishwashing detergent available, but add a few tablespoons of vinegar to the dish water. The vinegar will cut the grease and leave your dishes sparkling clean.

2. Before washing fine china and crystal, place a towel on the bottom of the sink to act as a cushion.

3. To remove coffee or tea stains and cigarette burns from fine chine, rub with a damp cloth dipped in baking soda.

4. To quickly remove food that is stuck to a casserole dish, fill with boiling water and add two tablespoons of baking soda or salt.

Have a good week!

RECIPE OF THE WEEK
Jennifer's Beef Teriyaki
2 teaspoons ginger
2 cloves garlic (cut finely)
1 medium onion sliced
2 tablespoons sugar
½ cup soy sauce
¼ cup water
Mix the above ingredients thoroughly. Marinade thinly sliced boneless chuch roast approximately 24 hours. Broil slice of meat on broiler pan for 3 to 4 minutes. Note: This marinade recipe can also be used for chicken. Marinade chicken for approximately 24 hours and bake in a 325° oven for approximately 1 hour. Delicious and very tasty!

Many thanks to Jennifer Midgett for sharing this delicious main dish with us. She recently prepared this for a church dinner and it was the hit of the evening.
